

Feedback Report 2019-20

As the session 2019-20 was marked with major hindrance of covid-19 pandemic, the feedback of session 2019-20 was collected in short period of time with limited number of students available. However with full co-operation of teachers, non-teaching, students and guardians it was possible to conclude with feedback well in time of the session. On the basis of analysis made by feedback committee in the meeting held on the 31-03-21 following conclusions were drawn which were summerized and forwarded to the Principal for further consideration-

- 1- Teachers are highly satisfied with the working conditions and overall appraisal of the college, only except that for availability of common room for staff, health insurance facility for staff, availability of canteen and crèche.
- 2- In all the teachers are highly satisfied with the course content providing an average of 67.5% on the whole for the same.
- 3- The non-teaching staff is also satisfied with the overall conditions prevailing in the college only except the average which goes to availability of common room facility, health insurance policy and availability of crèche.
- 4- Hence forth both teaching and non-teaching staff marks average for health insurance policy to staff, common room facility, availability to crèche and canteen. These are the variables where college and administration needs to focus on.
- 5- Thing to notice is that facility of health insurance to staff, common room for staff, availability of crèche and canteen are marked low since 2010, hence the college and administration needs to focus their attention for the same.
- 6- The students are highly satisfied with the college only except few factors like that of academic tours and camps, NCC, NSS, Rovers and Rangers which are again not upto the mark since 2010, more efforts are required in this field.
- 7- Students are satisfied on the whole with entire college staff from average to higher satisfaction level.
- 8- Guardians are highly satisfied with college and staff, better part is that the guardians mark improvement for level of satisfaction for the functions of NCC, NSS, Rovers and Rangers in 2019-20, respectively.

However the entire feedback analysis makes evident that teachers, non-teaching, students as well as guardians are satisfied with college and its administration besides few parameters as mentioned above needs to be focused on.
