

Feedback Report 2024-25

The meeting of feedback committee was organised on the 18th of March 2024, respectively where the feedback forms of teaching, not teaching staff, students and guardians were distributed faculty wise to be further divided among the students and teachers along with non-teaching staff. Further the forms were collected back on 12th December 2025 and were analysed point wise to frame into the report of 2024-25, respectively.

An all over average of 228 of 380 that is 60% of the students are satisfied from the facilities provided by the college relating to discipline, library, scholarship, sports, internet, financial and for weaker section students, book bank, canteen, girl's common room, laboratory, NCC, NSS, Rovers and Rangers, cultural activities, Career Council Cell, anti ragging cell, availability of before time information, remedial classes, role and behaviour of Principal as administrator, availability of Principal. Principal as guardian and capacity of Principal to solve the problems.

Only features where students seemed to be unsatisfied are with the facility of first aid, availability of pure filtered drinking water, clean lines of toilets and parking facilities especially during exams where two wheelers particularly blocks, the college lane. Hereby the range of assessment varies from 187 to 261, respectively.

Students are also highly satisfied from the teaching staff of the college with an overall average of 222 of the total 250, respectively which is 89% of all parameters, stretching from the minimum of 87 to the highest of 241 on the whole.

Again the students are satisfied by the overall evaluation of course and teaching perspectives, where generally 70% to 85% of the syllabus was covered in all subjects.

Only that the syllabus was inadequate or challenging due to semester system and NEP. Other than that students are highly benefitted from the course content which was manageable to understand where almost 70% to 85% of course is covered. Students are content with the teacher's preparation and ability to communicate only that some

20/12/25

teachers are sometimes rude. The assignments are continuously discussed with the children and the material is also provided for the same.

Most important remains the feedback provided by the guardians to mark the level of satisfaction of their wards and college. The guardians are highly satisfied with an average of 80% with academic environment of college, discipline, suitable college timings particularly when shifted to 9:30 during winter season. Appropriate functioning of NCC/NSS/Rovers and Rangers units, sports, fees structures, environment awareness programmes, ragging free environment and full co-operation of both teaching and non-teaching staff. Only that guardians are bit unsatisfied for the functioning of placement cell, campus selection and job oriented course. Guardians however are unsatisfied the man from parking facility which is inadequate and blocks the road during exams along with the facility of first aid and medical facility in the case of emergency.

The teacher's feedback provided on overall of 61.96% to the college in different parameters, where the highest of 82.8% was provided to the section B which states that the leaves are granted as per norms provided by D.H.E.U.P. and University. Here all the teachers are highly satisfied with the sanctioning of leaves to the teacher. This is followed by 75.74% to parameter A where the teachers are again highly satisfied with the working conditions especially with the stress free environment, work load as per norms and timely availability of increment, promotion, salary and arrears.

Next to this teachers are again highly satisfied by 74.24% by parameter related to the co-ordination between teachers and college administrations especially about the hearing of teachers with college administration, secrecy of feedback is maintained successfully, full co-operation to teachers by management committee and representation of teachers in any decision making along with full co-operation and co-ordination between teachers and principal. This is followed 62.43% provided to the infrastructure where parking facility is provided for two and four wheelers although not sufficient, personal storage facility provided in departments, Lab/E-lab equipments available as per requirement, availability of canteen, staff quarters and guest house is satisfactory. But the infrastructure lags behind in bad condition of some

8/12/25

departments due to humidity, classrooms are not clean, there are no separate toilets for ladies and gents, pure drinking water facility is available only in few departments and there is no college bus facility for teachers and students to collect from all over the city.

Teachers feedback go low at 55.31% for the professional growth where journals, books, encyclopaedia etc. is available and leaves are sanctioned smoothly for orientation, refresher course, seminars etc. but there is no cabin or separate computer for each faculty member and internet facility is not smoothly available in the college. Minimum of 27.85% is provided for the facilities to teachers where teachers are only satisfied with proper utilization of teachers welfare fund but marks low for medical facility, health insurance, common room for teaching staff, students teachers ration as per norms and non-availability for crèche.

The non-teaching staff provides 87.26% for the co-ordination between staff and college administration particularly for the stress free environment, secrecy of feedback co-operation of management committee, representation of staff in college matters and proper hearing of staff's problems by Principal. This is followed by 81.83% to the infrastructure where the only point marking low is separate toilets for females and gents, further 80.21% is provided for working conditions where there is provision for lunch break, timely bones, timely salary/arrears, timely increment and work load as per norms. Further non- teaching staff provides 69% easy process to provide leaves and professional growth process. The unsatisfactory 49.03% is provided to professional growth process, internet facility and computer facility to the staff. While the minimum of 33.56% is provided for the facilities for staff like medical, health insurance, common room facility, proper utilization of welfare fund, crèche and uniform facility. Hereby the total of 71.21% is provided overall to the parameters of feedback by non-teaching staff, respectively.

85-1
